WillametteValleyNORML.org

A Voice for Responsible Marijuana Smokers

Since its founding in 1970, NORML has provided a voice in the public policy debate for those Americans who oppose marijuana prohibition and favor an end to the practice of arresting marijuana smokers. A nonprofit public-interest advocacy group, NORML represents the interests of the tens of millions of Americans who smoke marijuana responsibly. During the 1970s, NORML led the successful efforts to decriminalize minor marijuana offenses in 11 states and significantly lower marijuana penalties in all others.

The oldest and largest marijuana legalization organization in the country, NORML maintains a professional staff in Washington, DC, and a network of volunteer state and local [NORML Chapters](#) across the country. Check 'em out, and find the one nearest you!

The NORML mission is to move public opinion sufficiently to achieve the repeal of marijuana prohibition so that the responsible use of cannabis by adults is no longer subject to penalty.

When marijuana is enjoyed responsibly, subjecting users to harsh criminal and civil penalties provides no public benefit and causes terrible injustices. For reasons of public safety, public health, economics and justice, the prohibition laws should be repealed to the extent that they criminalize responsible marijuana use. **NORML, the National Organization for the Reform of Marijuana Laws – is located at 1600 K Street, NW, Suite 501, Washington, DC 20006-2832. Phone (202) 483-5500, Fax: (202) 483-0057 or visit: www.norml.org**

Today Willamette Valley NORML joins the fight to reform state and federal marijuana laws, whether by voter initiative or through the elected legislatures. W-V-NORML will serve as an informational resource to media on marijuana-related stories, providing a perspective to offset the [anti-marijuana propaganda](#) from the government; lobby state and federal legislators in support of reform legislation; publish a regular [newsletter](#); host an informative web site; and serve as the umbrella group for a regional network of citizen-activists committed to ending marijuana prohibition and legalizing marijuana.

Along with their parent organization, W-V-NORML will sponsor public advertising campaigns to better educate the public about marijuana and alternatives to current marijuana policy; provide legal assistance and support to victims of the current laws; and promote relevant research.

W-V-NORML supports the right of adults to use marijuana responsibly, whether for [medical](#) or [personal](#) purposes. All penalties, both civil and criminal, should be eliminated for responsible use. W-V-NORML also advocates the legalization of [hemp](#) (non-psychoactive marijuana) for industrial use. **To find out more, like how you can help, call, write or visit our website. You'll be glad you did!**

<continued from **THE MARCH**, page 1 > Marijuana March with festivities the entire day. Assemble 11am at the Federal Building, 7th & Pearl, with the Rally beginning at High Noon. Speakers include, **Elvy Musikka; Dr. Arthur Livermore; Allan Erickson; Ed Glick, RN.; Shawn Flury; Jen Valley; Barry Stull; and our own Dan Koozer as MC** – see below for biographies. Please bring all of the available MJ & MMJ rally signs that you can.

Then there is the After Party and Fundraiser, 8PM, 687 River Ave., Eugene, to celebrate our success and plan next years action. OMMP CardHolders take NOTE: There will be a place for patients to medicate.

About "Medical Marijuana Awareness Week" in Eugene. Kudos to Willamette Valley NORMLs Jim Grieg for years of work and to the Mayor of Eugene for her courage.

**OFFICE OF THE MAYOR
City of Eugene, Oregon
PROCLAMATION**

WHEREAS: In November 1998, Oregon voters passed into law the Oregon Medical Marijuana Act, allowing Oregonians suffering from debilitating medical conditions to use marijuana as medicine. Currently, nearly 25,000 patients are enrolled and over 2,900 doctors have provided recommendations for patients' utilization of medical marijuana; and

WHEREAS: Thirteen states have passed laws allowing for chronically and seriously ill patients to use cannabis with the approval of their physicians; and

WHEREAS: On September 6, 1988, Drug Enforcement Administrations (DEA) own Administrative Law Judge, Francis L. Young, ruled that "Marijuana, in it's natural form, is one of the safest therapeutically active substances known"; and

WHEREAS: There are over are over 17,000 published scientific studies on the therapeutic values of cannabis and cannabinoids in the National Library of Medicine, and, there are over 2,600 patents filed for the medical use of cannabinoids in the United States Patent office; and

WHEREAS: Pre-Clinical and Clinical trials indicate that cannabinoids are useful in controlling Alzheimer's Disease, Cancer, Chronic Pain, Diabetes, G I Disorders, Hepatitis C, Multiple Sclerosis, Osteoporosis, Pruritis, Rheumatoid Arthritis, and Sleep Apnea; and,

WHEREAS: Marijuana has a history of thousands of years of safe use without any recorded deaths attributed to its use, and, all citizens deserve to know the truth about cannabis,

NOW, THEREFORE, I, Kitty Piercy, Mayor of the City of Eugene, Oregon, do hereby proclaim the Week of April 30th, 2009 to May 6th, 2009 as

"Medical Marijuana Awareness Week"

in the city of Eugene, and encourage all citizens to join in this observance.

**Kitty Piercy, Mayor
Dated this 22nd day of April 2009**

About the GMM

The Global Marijuana March is an annual world-wide event celebrating the benefits of cannabis and hemp that takes place, for most participants, on the first Saturday in May. On that day – referred to as Jay Day by some organizers – people in hundreds of cities around the world rally and march in unison for cannabis law reform. A peaceful party to celebrate our gains and to re-energize for the next steps. The main purpose is to raise awareness about the issues, to inform and educate thru the publicity involved.

Secondly, we want to register every person there and further empower them by providing whatever is needed to getting them to the voting booth at the right time. Also we want a good show, a nice time for every one - entertaining as well as informative. And, at the same time, we can also raise a little money and fund some projects for the cause - like sponsoring OMMA patients who can't afford a fee or a Hemp Initiative. We pick up steam every day, we gain more sponsor\$ and other support each time we talk about it.

Also, different groups with related agendas can be represented. We can use this opportunity to stand united as one voice.

The GMM is an event that has been going on for somewhere around 25+ years and has years of tradition of which many are unaware. It started as the Yippie! organized "May Day 5th Avenue Pot Pride Parade" in New York City and in 1996 became known as the Million Marijuana March. Even though the event still occurs on the first Saturday in May, it has now established tradition of its own, spreading beyond NYC.

<continued on next page>

<continued from previous page>

The emphasis of the following years events are turning from that street party into a productive political venue that the NAACP and the ACLU would be proud to co-sponsor. We folks in Salem are doing this successfully, we believe. Let's honor our counter-cultural elements, history, heroes and activists, but at the same time be aware that we need to better coordinate our efforts for the maximum politically-positive media spin and potential resulting benefits for our on-going political efforts.

Ours are not the minds we need to be concerned with. Its success depends on our ability, each and every one of us, to become a teacher. **For the latest on the Eugene entry in the GMM, bookmark your browser to -**

<continued from ELVY MUSIKKA, page 1 > This is her story:

"In late February 1975 I went to see Dr. Rosenfeld, a general practitioner in the Ft. Lauderdale area. He concluded a very thorough examination and said my eyes had been stricken with glaucoma. My [intraocular fluid] pressures were in the high 40s [pressure in the low teens is normal], and Dr. Rosenfeld insisted I see an ophthalmologist immediately. His suspicions were confirmed and I was started on pilocarpine eyedrops.

"By the spring of 1976 the pilocarpine itself was becoming a problem. I began seeing circles but assumed they were a symptom of the glaucoma. Wearing contact lenses was uncomfortable and my pressures were going up. A new doctor suggested I consider marihuana because it was likely that otherwise I would go blind. He told me this as a friend, not a doctor; it was then that I began to realize that sometimes doctors have to choose between Hippocratic oaths and hypocritical laws. I was most fortunate this man had a heart." Visit - http://www.marijuanalibrary.org/MTFM_Musikka_1993.html

Elvy Musikka Speaks About Medical Cannabis

"We were forced to exercise our instincts of self-preservation...because we understood that a man-made law could not possibly wipe away our common sense when it came to survival." Elvy Musikka speaks out at HempStalk in Portland, Oregon, 2007. visit - <http://www.youtube.com/watch?v=UNxqtXUxg-w>

Elvy Musikka, Glaucoma patient, one of only eight legal medical marijuana users in the Federal IND Program, Successfully Defends Marijuana Cultivation

Photo: Elvy holds her can that she gets every month containing 300 IND issued joints. Living in Florida, Elvy Musikka bought the Reefer Madness story, hook, line and sinker. As her already bad eyesight continued to deteriorate, she endured prescription pharmaceutical drugs which had uncomfortable side effects, but little effect on her glaucoma. Turning to ever more desperate measures, Elvy agreed to undergo a risky surgery on her better, right eye. The operation left her blinded in that eye. Only then did she consider suggestions to try using marijuana to reduce the buildup of inner eye pressure. To her grudging surprise, she found that it seemed to work. Visit - <http://www.hr95.org/musikka.htm>

Name: **Elvy Musikka**, Title: **Medical Marijuana Patient in the US Food and Drug Administration (FDA) Investigational New Drug (IND) Program**, Position: **Pro to the question "Should marijuana be a medical option?"**

Reasoning: "I am patient no. 3 of 8 who today currently receives medical marijuana through the federal government of the United States. [...] By 1991, I am aware of at least 50 patients who through extensive medical records, reputable doctors, and sometimes through courts -- such as in my case -- were able to convince all three drug-related agencies, FDA, DEA, and NIDA, that for us, marijuana isn't just medicine, it is the most efficient, reliable and safest part of our treatment and sometimes it is our only treatment." Letter to President Bill Clinton, Jan. 13, 1997. Visit - <http://medicalmarijuana.procon.org/viewsource.asp?ID=005418>

<continued from NURSE ED, page 1 >

Nurse Claims He Was Fired For Pot Advocacy

A longtime Samaritan Health Services nurse is contesting his dismissal, claiming he was fired not because of his job performance but because he has been an outspoken advocate of medical marijuana.

<continued on next page>

<continued from previous page> An executive of the health care network disputes that claim. Ed Glick was terminated April 18, 2006 from his job as a nurse at Samaritan Regional Mental Health Center in Corvallis after he refused to take a drug test. Visit - http://mercycenters.org/action/Case_Ed.html - for more.

Ed Glick has been a champion in our movement for some time now. This story comes from the [Corvallis Gazette-Times](#). It should be noted that Glick is not an OMMP patient, rather just a regular person like many who choose to self-medicate with cannabis yet do not fit under the definitions of the OMMA.

With the critical shortage we have in nursing today, it is ridiculous that Samaritan Health Services would want to dismiss nurses for something as trivial as their after-work use of marijuana. However, that is the way the laws are written and we cannot blame Samaritan or the State Board of Nursing for following the rules. We must work to change the laws so good people like Nurse Ed are protected. Visit - <http://www.ornorml.org/forums/index.php?showtopic=1239>

Medical Establishment Abandons Patients and Ethics, Is There a Doctor (or Nurse) in the House? By Ed Glick

Nursing is caring. Twenty years ago I began to learn what real suffering looks and feels like. I watched helplessly while beautiful young men would, in three months time, age 50 years, dying from a disease no one knew anything about at the time.

I have watched tobacco-cancer eat the lungs, livers and hearts out of people. They had no idea, when they began using this legal herb, the consequences in store for them. I've cared for all of these people because they were suffering, and because I am a nurse.

Today I sadly witness another widespread—and preventable—tragedy of human suffering. It is the pain of ill and dying people, legally persecuted for using an illegal herb, and simultaneously denied their appropriate medicine by the medical establishment. This is the everyday experience of cannabis patients, the "untouchables" of American medicine. Visit -

We Stand Here Today! by Arthur Livermore

When I was a young man of 16 years, I had the privilege of being one of the thousands who marched on Washington D.C. and listened to the "I have a dream" speech of Martin Luther King, Jr.

Little did I know then of the value and far-reaching effect that speech would have on me as I progressed through life seeking my own freedom to speak out and bring about a change of mind and heart toward the medicinal value of a prohibited plant. We stand here today as a positive reflection of that value. We stand here today for all of those who have been and are presently suffering untold miseries because they have and are using cannabis as an alternative medicine for their illness. Group Educates Oregonians About Medical Marijuana Program at State Capitol by Allan Erickson for Salem-News.com

There are over 30 bills in the Oregon legislature dealing with cannabis, most dealing with the Oregon Medical Marijuana Program (OMMP).

(SALEM, Ore.) - Mothers Against Misuse and Abuse (MAMA) held an event at the state capitol on Monday, April 13. The all-day presentation, "The Faces of the OMMP: We're the People in Your Neighborhood" featured a display of posters and educational material, and put faces on some of Oregon's patients who utilize cannabis as medicine.

Oregon has a large and dedicated (but occasionally prickly) population of cannabis/drug policy activists and organizations. MAMA sharply demonstrated that our politicians have fallen behind citizens in their understanding of the truth about cannabis. Visit - http://www.salem-news.com/articles/april182009/cannabis_capitol_ae_4-19-09.php

Marijuana Prohibition Is Sheer Folly (LTE by Allan Erickson)

Alas, Oregon has added itself to the states suffering a lethal case of reefer madness.

Hubert Henkel is dead after being shot in early March by two Clackamas County sheriff's deputies serving a warrant for cannabis cultivation at

10:30 p.m. on his farm near Mulino. A neighbor described the 68-year-old Henkel as "the hardest working guy I've ever met." His longtime companion, Marjorie Crawford, 80, was arrested. A hardworking pair of seniors is terrorized in their home, late at night, because they enjoy pot?

Henkel's death proves the adage that pot doesn't kill, but prohibition does. Unfortunately, Henkel's death is not an anomaly. There is a litany of names of those who have died because of the war on pot. No one else ever should die over cannabis. Visit - <http://www.cannabisnews.org/?p=2458>

And / Or, visit his blogspot, the Morning Donut, like a Café ... where you can Grab your coffee and get yourself a donut. Simple musings for thoughtful folks... (or is that thoughtful musings for simple folks? hmmm...) Or, consider it... like sitting down for coffee in the kitchen.

Only you're at home, sitting in front of a computer. So its a virtual kitchen, with real coffee (at least here it is!) and virtual donuts. I mean after all, that is what the *new millenium* is about, eh? Its a virtual world, literally. And this is just a quick stop for a coffee and donut. Mmmm.... the smell of a donut shop early in the a.m. when the first batches are put up for cooling... yummm. Visit - <http://www.morningdonut.blogspot.com/>

Brian Michaels is a Eugene based lawyer who specializes in criminal cases, drug crimes, search and seizure, forfeiture, the Oregon Medical Marijuana Program, and civil rights cases. He is a member of the NORML Legal Committee among other notable groups.

Gathering Steam, Eugene attorney Brian

Michaels challenges the constitutionality of the 34-year-old Oregon Mass Gathering Act.

For Brian Michaels, this fight started a long time ago. Even before he went to law school at age 34, the now 50-year-old Eugene attorney spent his free

<continued on next page>

<continued from previous page> time fighting state and federal officials who wanted to shut down legal counterculture gatherings such as the annual assembly of the Rainbow Family. Prior to getting his law degree, he faced down the government in North Carolina, Texas and West Virginia to name just a few. As an attorney licensed in Oregon, he's fought for medicinal marijuana patients who were illegally searched and arrested. Last year he won a \$70,000 judgment against Lane County. Visit - <http://www.eugeneweekly.com/2005/07/28/coverstory.html>

Judge Won't Grant New Trial In Eugene Police Taser Case

Lane County Circuit Judge Jack Billings swiftly denied a defense request for a new trial for a University of Oregon student convicted of disorderly conduct and resisting arrest at a downtown demonstration in Eugene, Oregon.

Brian Michaels, an attorney for Ian Van Ornum, argued that Billings had improperly denied a defense request to include a special jury instruction that would have provided the six jurors additional context for evaluating whether the 19-year-old demonstrator was unlawfully resisting arrest or engaging in lawful self-defense against excessive force by police. Shawn Flury is the founder of Oregon Green Cross and a former drug war prisoner who served 20 months in prison for growing marijuana for sick and dying people.

Deputies raid medical marijuana operation

PORTLAND - Sheriff's deputies have seized 110 marijuana plants from a greenhouse in Woodburn operated by a medical marijuana group. Shawn Flury of Oregon Green Cross says the crop was for about 35 people allowed to smoke marijuana under Oregon's medical marijuana law. Each person was given an ounce of the drug twice a month. However, sheriff's officials say they seized the marijuana because the operation lacked the documentation needed to grow that many plants. Visit - <http://www.marijuana.com/drug-war-headline-news/13392-oregon-dispensary-raided-local-authorities.html>

Case Challenges Oregon's Medical Marijuana Law

Oregon City, OR
July 28, 2005 --
Criminal proceedings that began Wednesday will

test the limits of Oregon's medical marijuana law. Clackamas County sheriff's deputies arrested Shawn Flury, 44, and David Thomas Howard, 51, more than a year ago during the raid of an Oregon Green Cross marijuana-growing operation. Both are charged with possession, manufacture and delivery of a controlled substance.

"They don't respect the law. They think it's all criminal activity," Flury said this month of law enforcement officials. He contends the case is an attempt to unravel the state's medical marijuana law. Visit -

<http://hempevolution.org/media/oregonian/o050728.htm>

MMJ Licensing Leads To Surplus In State Coffers.

Baylen at [D'Alliance points us to a story](#) on medical marijuana patients in Oregon and their caregivers. The [caregivers grow the cannabis](#) for those unable to grow it themselves. People like Shawn Flury, the director of Independence-based Oregon Green Cross, which provides two ounces of marijuana per month to each of its 35 patients donate their time and risk their safety from federal intervention to provide the herb to the sick and the dying for free. The caregivers tend to provide for more than one patient at a time as the demand is high and the cost of start-up is prohibitive. It's simply most cost effective to grow more plants. Visit -

Man Loses Card For Medical Pot; Activists Cry Foul.

Medical marijuana activists say a Lane County judge overstepped his authority Wednesday when he ordered a Eugene man to surrender his medical marijuana card as a condition of probation for illegally growing marijuana. Matthew Lee Hardy, 23, said the ruling means he must resort to narcotic painkillers to treat the chronic back injury he suffered five years ago in an automobile accident. He said he will appeal the ruling. Visit - <http://www.safeaccessnow.org/article.php?id=1275&printsafe=1>

News From *your* local affiliate of the National Organization for the Reform of Marijuana Laws

Barry Stull one of Oregon's pioneers in Cannabis Research is a long-time activist on hemp and medical cannabis issues.

Nothing intimidates Barry, LC elder

Many Lewis & Clark students wear hemp necklaces or bracelets. Junior Barry Joe Stull puts them to shame. He wore a 100% hemp suit to his jazz band performance last Tuesday. The next day, he wore jeans made of hemp and a tee-shirt with "hemp" emblazoned across it. He then proceeded to help distribute posters printed on hemp

paper to advertise the LC Hemp Club's first event. Stull, a music and pre-law major and recipient of a Dean's Scholarship, is the coordinator and founder of the club.

More than just his passion for hemp advocacy sets Stull apart from his LC classmates. Stull, 39 years old with a bald crown and long hair, served almost 18 months of a five-year prison sentence in the Oregon State Penitentiary for manufacturing and possession of a controlled substance. He is also a singer and songwriter and performs the mandolin once a week at the It's a Beautiful Pizza restaurant in Portland.
